## Modernizing China's Military: Progress, Problems, and Prospects David Shambaugh

David Shambaugh, a leading international authority on Chinese strategic and military affairs, offers the most comprehensive and insightful assessment to date of the Chinese military. The result of a decade's research, *Modernizing China's Military* comes at a crucial moment in history, one when international attention is increasingly focused on the rise of Chinese military power. Basing his analysis on an unprecedented use of Chinese military publications and interviews with People's Liberation Army (PLA) officers, Shambaugh addresses important questions about Chinese strategic intentions and military capabilities--questions that are of key concern for government policymakers as well as strategic analysts and a concerned public.
