Fenómeno suicida. Un acercamiento transdisciplinar (Spanish Edition) Teresita Morfín López, Armando Martín Ibarra López

La obra Fenómeno suicida: un acercamiento transdisciplinar es un recurso potencialmente útil para modificar un fenómeno tan complejo y dinámico como el suicidio, el cual requiere una adecuada comprensión. Dicha comprensión no es unitaria, única ni monolítica, sino por necesidad parcial, provisional y fragmentaria. Para enriquecerla y en el reconocimiento del cambio social continuo que vivimos, se requiere el reconocimiento de que la integración de múltiples miradas desde campos y perspectivas conceptuales distintas, puede abonar a un mayor conocimiento y por lo tanto potenciar la posibilidad de generar intervenciones efectivas en la modificación de los índices de suicidio y de intento suicida. Es por ello que se habla de una perspectiva transdisciplinar que reclama como suyo un campo complejo de interacciones de diversa índole.

La obra convoca a diversos investigadores nacionales que han elaborado sus propuestas bajo esta perspectiva. En la primera parte identifican en México los factores de riesgo y prevención del fenómeno suicida, en la segunda se plantean las diferentes perspectivas tanto conceptuales como metodológicas de abordaje del fenómeno suicida; finalmente, en la tercera parte y de forma congruente con la anterior, se derivan algunas perspectivas de intervención desde la dimensión psicológica para atender a personas que han intentado suprimir su existencia.
