## Museums: A Visual Anthropology (Key Texts in the Anthropology of Visual and Material Culture)

Mary Bouquet

*Museums: A Visual Anthropology* provides a clear and concise summary of the key ideas, debates and texts of the most important approaches to the study of museums from around the world. The book examines ways to address the social relations of museums, embedded in their sites, collections, and exhibitions, as an integral part of the visual and material culture they comprise.

Cross-disciplinary in scope, *Museums* uses ideas and approaches both from within and outside of anthropology to further students' knowledge of and interest in museums. Including selected, globally based case studies to highlight and exemplify important issues, the book also contains suggested Further Reading for each chapter, for students to expand their learning independently.

Exploring fundamental methods and approaches to engage this constantly evolving time machine, *Museums* will be essential reading for students of anthropology and museum studies.
