## **A Rulebook for Decision Making (Hackett Student Handbooks)** George Pullman

"Pullman offers his readers essential insights into how humans reason and make decisions. Both concise and far-reaching, his work teaches us how to challenge intuitive logic and examine the processes for deliberative reasoning. This text will prove foundational for students in their intellectual journey toward the development of real skills in critical thinking. By pointing to simple yet profound examples, Pullman's text is both readable and provocative as it challenges us to consider the very mechanisms by which we understand our own cognitive biases." Bradley A. Hammer, Department of English and Comparative Literature, University of North Carolina, Chapel Hill
