Decapitating the Union: Jefferson Davis, Judah Benjamin and the Plot to Assassinate Lincoln John C. Fazio

The literature on Abraham Lincoln's assassination is replete with errors, theories and guesswork. This comprehensive re-examination of the facts seeks to correct errors in the record, reconcile differences of opinion, offer explanations for unknowns and evaluate theories. Drawing on hundreds of sources, the author covers the prelude to the war, Booth's accomplices and their roles in the conspiracy, the kidnapping ruse that concealed the intended decapitation of the government, the mysteries surrounding key players, the assassination itself, Booth's escape, the pursuit of the fugitives, the death of Booth and the trial and sentencing of his co-conspirators (except John Surratt) and one innocent man. The simple conspiracy theory is rejected by the author in favor of the theory that Booth worked with the complicity of the highest levels of the Confederate government and its Secret Service Bureau, whose twofold purpose was retribution and snatching Southern independence from a weakened and chaotic Federal Government.
