This study of narrative technique in Victorian novels introduces the concept of "narrative annexes" whereby unexpected characters, impermissible subjects and plot-changing events enter fictional worlds that otherwise exclude them, challenging Victorian cultural and literary norms. Original readings of novels by Charlotte Brontë, Dickens, Disraeli, Hardy, Kingsley, Trollope and Wells show these writers negotiating the boundaries of representation to reveal subjects (notably sexuality and social class) that contemporary critics sought to exclude from the realm of the novel.
