War and Technology

Jeremy M. Black

War and Technology Jeremy M. Black

In this engaging book, Jeremy Black argues that technology neither acts as an independent variable nor operates without major limitations. This includes its capacity to obtain end results, as technology's impact is far from simple and its pathways are by no means clear. After considering such key conceptual points, Black discusses important technological advances in weaponry and power projection from sailing warships to aircraft carriers, muskets to tanks, balloons to unmanned drones—in each case, taking into account what difference these advances made. He addresses not only firepower but also power projection and technologies of logistics, command, and control. Examining military technologies in their historical context and the present centered on the Revolution in Military Affairs and Military Transformation, Black then forecasts possible future trends.

From reader reviews:

Tyrell Gutierrez:

Have you spare time to get a day? What do you do when you have more or little spare time? That's why, you can choose the suitable activity for spend your time. Any person spent their spare time to take a stroll, shopping, or went to often the Mall. How about open or maybe read a book allowed War and Technology? Maybe it is for being best activity for you. You realize beside you can spend your time with the favorite's book, you can cleverer than before. Do you agree with it has the opinion or you have some other opinion?

Michele Stein:

Reading a reserve can be one of a lot of action that everyone in the world adores. Do you like reading book and so. There are a lot of reasons why people fantastic. First reading a e-book will give you a lot of new information. When you read a guide you will get new information simply because book is one of various ways to share the information or even their idea. Second, reading through a book will make an individual more imaginative. When you looking at a book especially fiction book the author will bring that you imagine the story how the figures do it anything. Third, it is possible to share your knowledge to other people. When you read this War and Technology, you may tells your family, friends and soon about yours reserve. Your knowledge can inspire others, make them reading a guide.

Tamara Evans:

Reading a reserve tends to be new life style in this particular era globalization. With looking at you can get a lot of information that will give you benefit in your life. With book everyone in this world could share their idea. Guides can also inspire a lot of people. A lot of author can inspire all their reader with their story as well as their experience. Not only situation that share in the publications. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors these days always try to improve their expertise in writing, they also doing some investigation before they write on their book. One of them is this War and Technology.

Edward Carroll:

Are you kind of stressful person, only have 10 or perhaps 15 minute in your day to upgrading your mind ability or thinking skill even analytical thinking? Then you are having problem with the book than can satisfy your short period of time to read it because this time you only find e-book that need more time to be go through. War and Technology can be your answer as it can be read by a person who have those short free time problems.
