Archeologist and historian Dr. Ian James receives a fervent call from an old friend. His presence is requested immediately in Egypt to help verify evidence of an ancient, even sacred, artifact. A far cry from his typical work as a professor, he suddenly finds himself plunged into a battle of worldviews, at war to define how we view history. What if archeologists found something that could change the world forever? What if the world came face-to-face with an artifact so ancient and so controversial that some would go to any length--even murder--to hide it? With the help of fellow archeologists, the support of a wealthy, God-fearing senator and an insatiable interest in finding the truth, Dr. James is on a quest to uncover one of the most important archeological finds in all of history. But things are not always what they appear, and supposed safety can quickly turn into a fight for their life. An inner-circle of ACLU members will attempt to thwart Dr. James at every turn. Some will stop at nothing--even murder--to make sure that Noah's Ark will never be recovered. In *The Search for Noah's Ark*, see the battle for truth unfold, as men of wealth and power collide to either reveal the truth they've always hoped existed, or to destroy it forever.
