'This book is encouraging, easy to read and full of inspirational ideas about how to introduce different topics for discussion. Methods to encourage and develop group dynamics are clearly outlined. For any secondary school considering introducing circle time, this book makes a good case in its favour' - *Youth in Mind*

Includes CD-Rom

The circle time teaching strategy is used extensively and successfully in primary schools, but secondary settings often find it difficult to implement. In this book, the authors advise on how a circle time programme can be developed in secondary schools, involving both staff and students.

Drawing on their experience of using circle time to deliver the PSHE and Citizenship curricula, they present a framework that that can be followed or adapted by other secondary schools. The development includes:

- consultation with students
- choosing the topics for the programme of study
- lesson plans written in the circle format

- recommendation for links within the wider school community and other agencies.

A CD-rom is included, providing lesson plans, circle time games, and advice on inclusion, group work and strategies and approaches suitable for the secondary setting.

The book also shows how the programme can be evaluated, taking into account the perspectives of the trainer, the staff and the students. Any secondary school practitioner looking to implement a circle time programme in their school will find this a useful and practical resource.
