Are we headed toward a global economic collapse? Financial markets are violently unstable worldwide, and the key benchmarks of financial health are rapidly getting worse. Christians know the Bible predicts a coming day when one person will take control of the entire global economy. But how will that happen? We may now have the answers. In fact, the biblical and technological evidence tells us that a cashless society and one-world economy are not only possible, but inevitable. Bestselling author Mark Hitchcock skillfully brings together current research and Bible prophecy to address these important questions: How is the stage being set for economic collapse and a cashless society? What technology will make this cashless world possible? How will the Antichrist control the world economy? What will happen to the people who face all this tumult and chaos? An eye-opening survey of the ways that future events can impact our lives even today.
