Conversations About Challenges in Computing

Kathrine Aspaas, Dana Mackenzie

Conversations About Challenges in Computing Kathrine Aspaas, Dana Mackenzie

This text sheds light on how mathematical models and computing can help understanding and prediction of complicated physical processes; how communication networks should be designed and implemented to meet the increasingly challenging requirements from users; and how modern engineering principles can lead to better and more robust software systems.

Through interviews with 12 internationally recognized researchers within these fields, conducted by the well-known science writer Dana Mackenzie and the science journalist Kathrine Aspaas, the reader gets views on recent achievements and future challenges. ?
